# Construction Staging in your Neighborhood

A contractor working for Contra Costa Water District is upgrading infrastructure in two locations to improve reliability of water service in your neighborhood for domestic use as well as firefighting. To complete this project, our contractor will use a portion of the Country Club Reservoir site near your home to stage materials and maintain a portable storage unit. See reverse side of this notice for project locations.

All materials and portable storage units will be located and secured on Contra Costa Water District property.

## Schedule

Staging at Country Club Reservoir will occur as soon as the week of March 11 and remain through until completion of both work locations.

- **March to September:** Work will take place at Midhill Reservoir and Pump Station near Arnold Drive in Martinez.
- **Fall 2019:** Work begins at Country Club Reservoir near Lake View Place in Martinez.

## What to expect

While the staging is in place, you may notice increased traffic at the beginning and end of each day. Efforts will be made to limit the amount of traffic and related noise. You will receive an additional notice when construction is ready to begin at Country Club Reservoir this fall.

## What is being done

Contra Costa Water District is upgrading two treated water reservoirs and pump stations: the Midhill Reservoir and Pump Station, and the Country Club Reservoir and Pump Station. Modernization of these facilities will extend the ability to provide reliable and clean water service to the District's surrounding customers. Upgrading the pump stations will improve efficiency of the facilities while reducing energy costs. These projects are a reinvestment of your water rates into your water infrastructure.

## Contact

Your patience and cooperation are greatly appreciated during this important project. If you have any questions, please contact Oliver Symonds at [osymonds@ccwater.com](mailto:osymonds@ccwater.com) or 925-688-8010. If you have an immediate concern outside of normal business hours, please call 925-688-8374.
