

Dear Homeowner,

Congratulations on deciding to convert your lawn into a drought-tolerant garden! This environmentally friendly and money saving path will benefit you, our community, and the planet. Ruth's Garden serves as an amazing example and source of inspiration for those looking to ditch their lawns for a water wise garden. Stop by for a visit to see what we mean!

The Nursery at the Ruth Bancroft Garden is open to the public and is filled with rebate-qualified plants for sale such as succulents, cacti, California Natives, and more! If our inventory doesn't meet your needs, our staff is dedicated to helping you find your desired plant or list of plants to fill your new water wise garden. To help get you started we're happy to offer a 20% discount on your purchase of plants in the Nursery.

Happy Planting,

Eric Nightingale, Nursery Manager
